

You can have lots of fun  
with ice and snow.

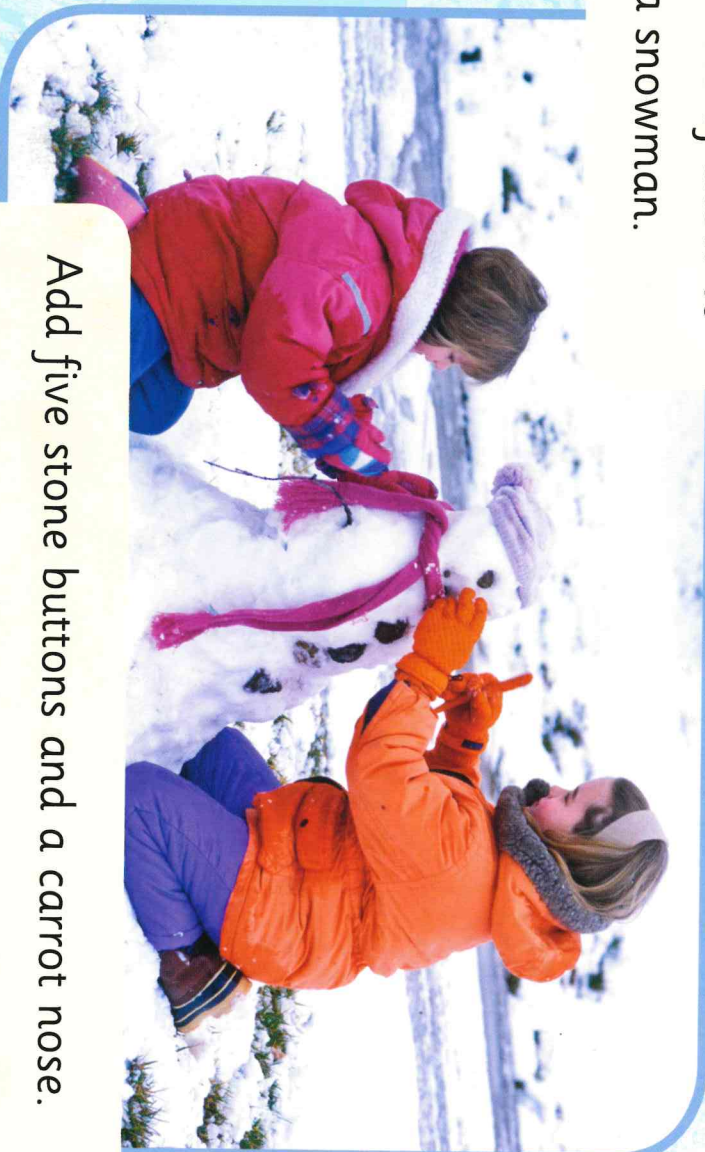

Lots of children like  
ice skating.

You can slide on ice at a  
playground. Or you can  
skate at an ice rink.

Take three strides – and  
then glide along the ice!

Pile up lots of snow to make a snowman.

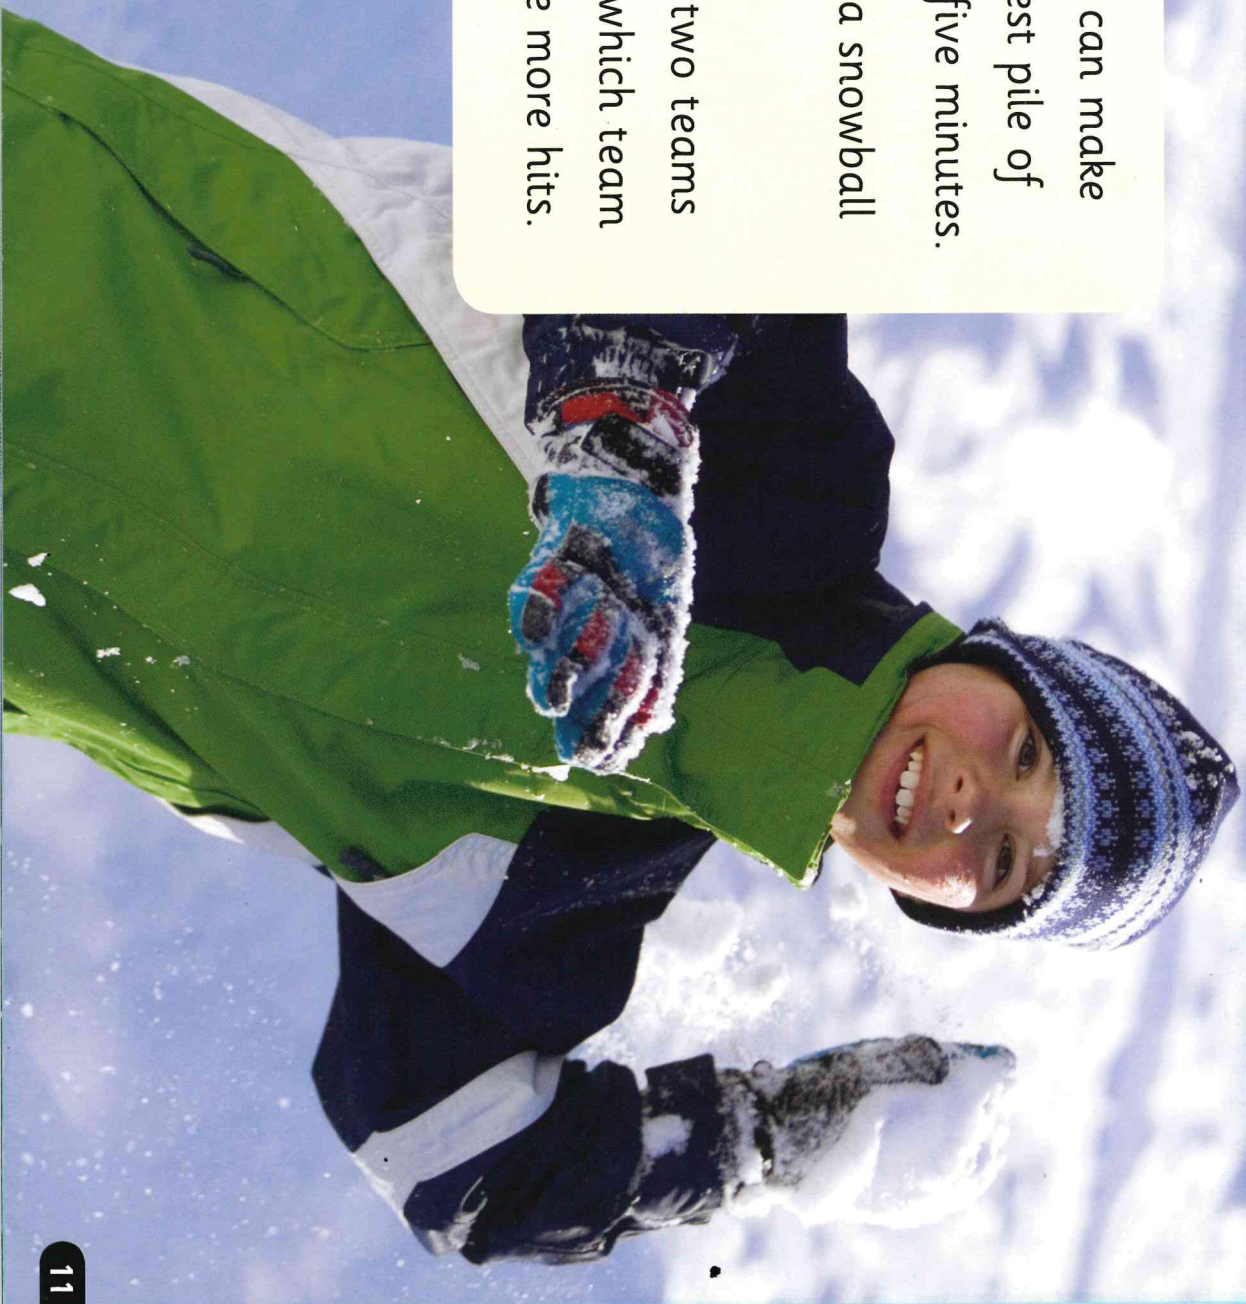

Add five stone buttons and a carrot nose.

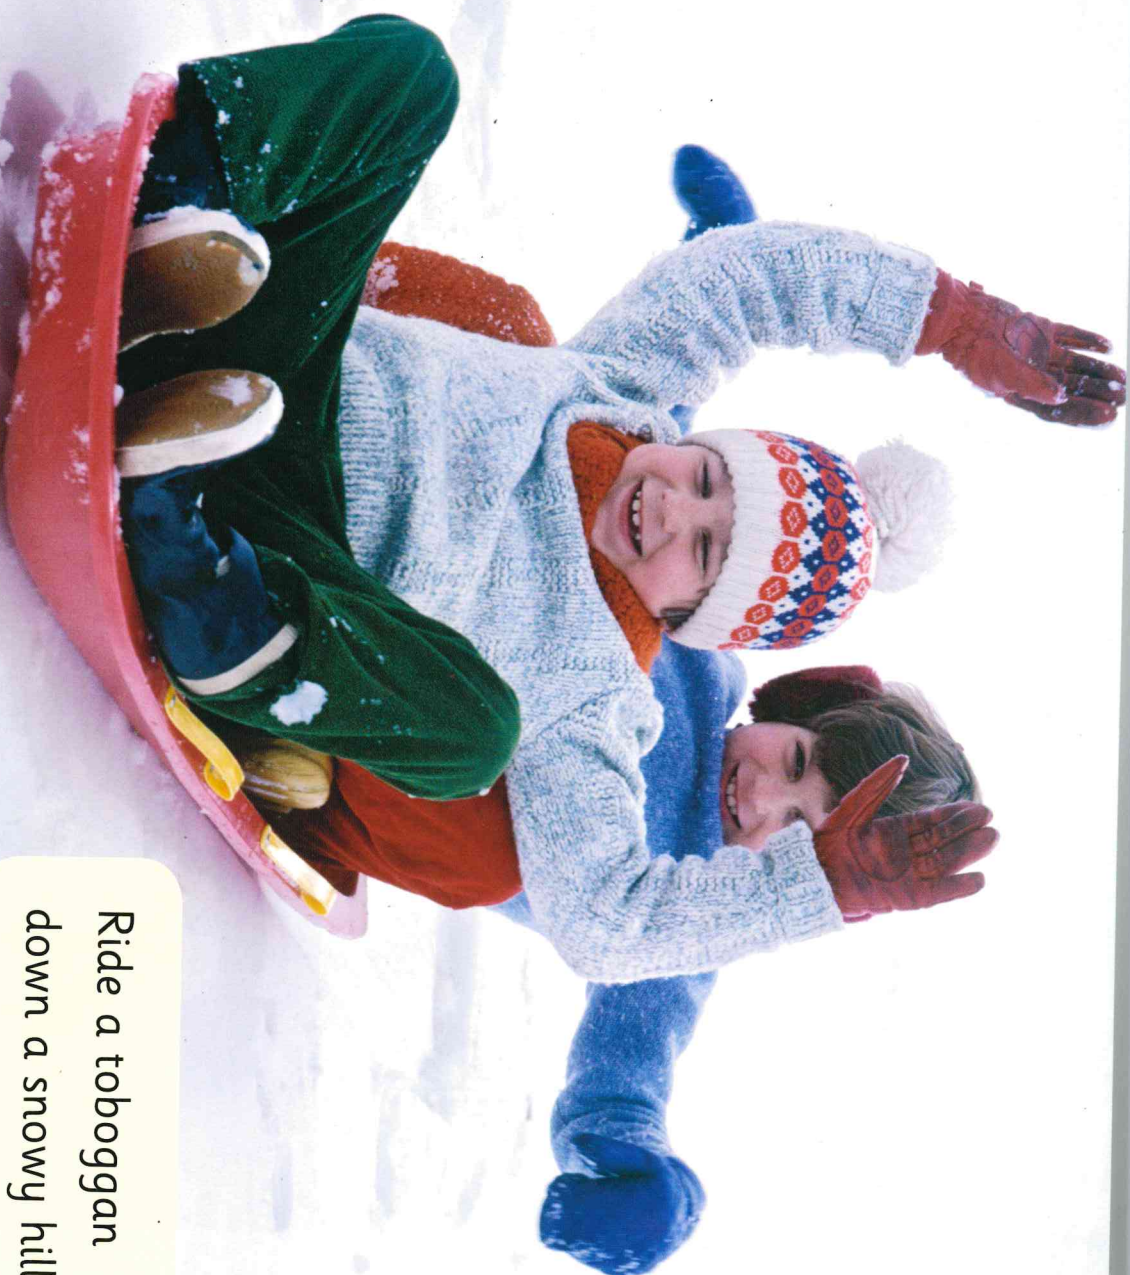

Add a mouth made from small stones to make the snowman smile.

Let the snowman borrow a nice bright scarf!

See who can make  
the biggest pile of  
snow in five minutes.  
Or start a snowball  
fight!

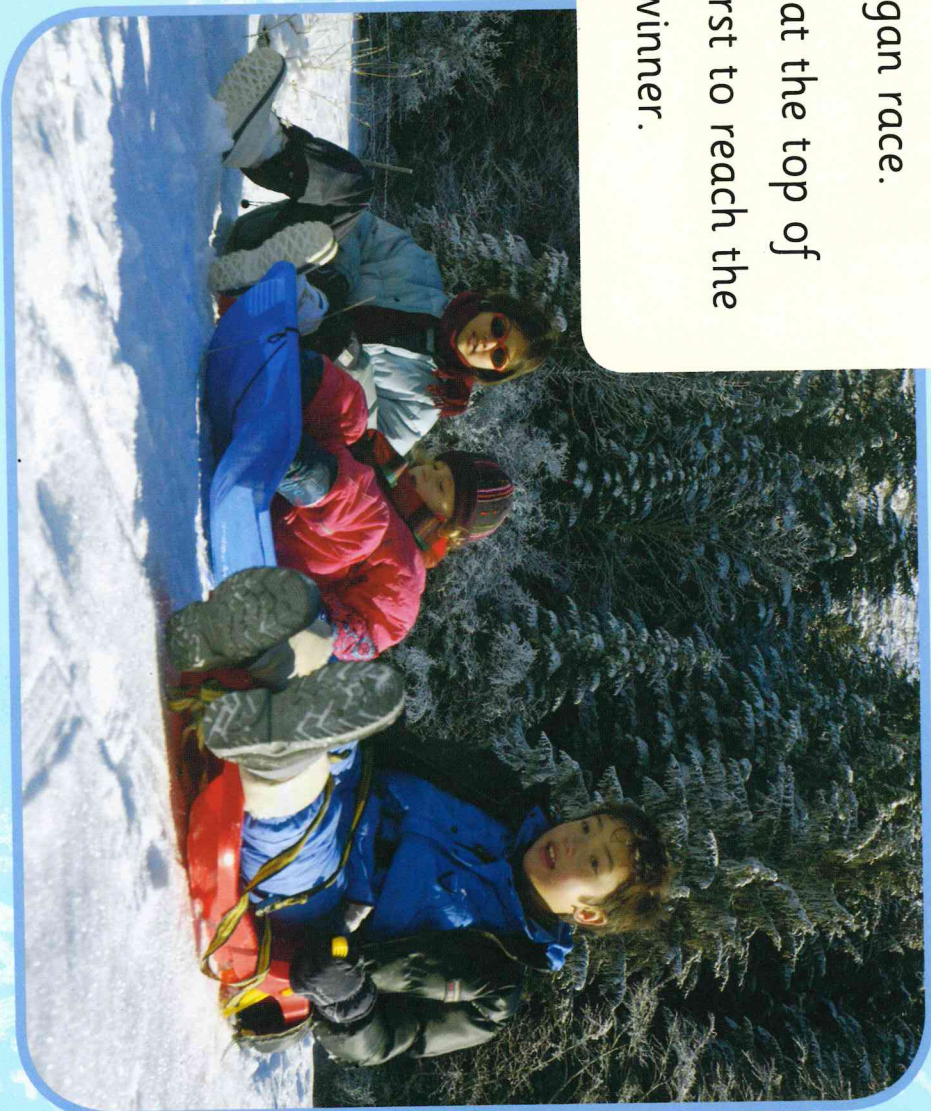

Get into two teams  
and see which team  
can score more hits.

Ride a toboggan  
down a snowy hill.

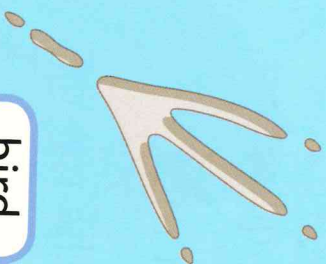

Toboggans can go quite fast.  
Set up a toboggan race.  
You all line up at the top of  
the hill – the first to reach the  
bottom is the winner.

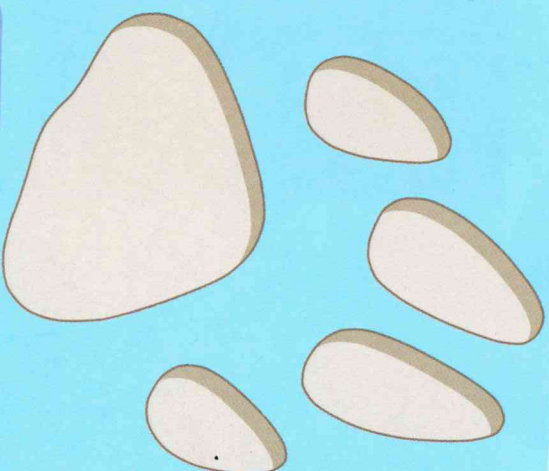

Set up a snowball and spoon race.

You must keep the snowball on your spoon as you race for the finish.

Or look for animal footprints in the snow.

bird

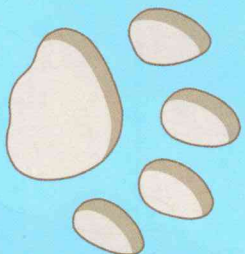

dog

The size and shape of the prints will tell you which animal made them.

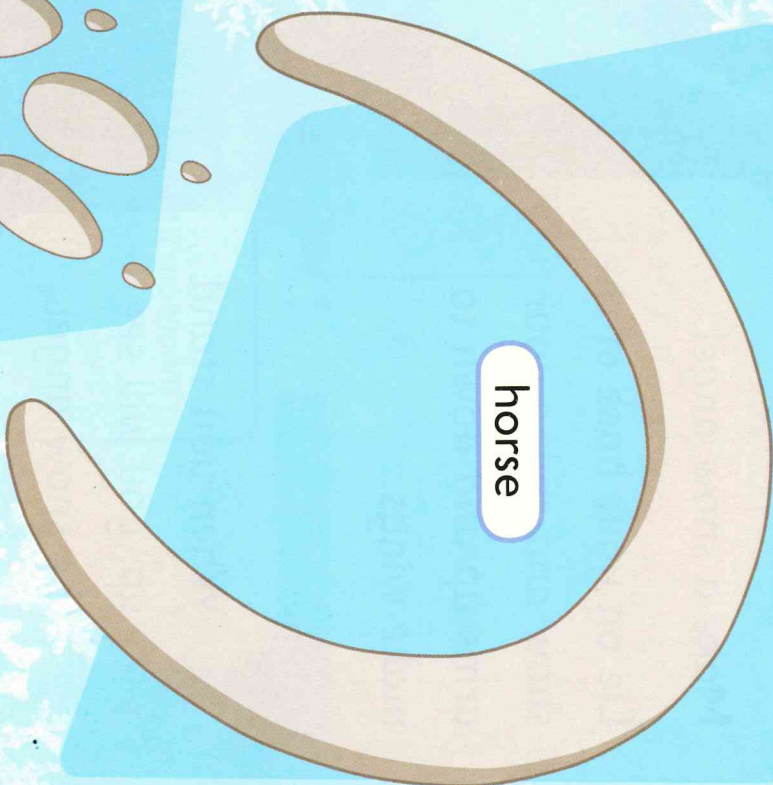

squirrel

cat

fox

horse

Make a snow angel.

Lie on your back in the snow and swing your arms up and down to make wings.

When you stand up, you will see the snow angel.
