

Instructions

Laminate and cut along the dotted lines to create picture puzzles. Children place the puzzle pieces in the correct order and then sound out and read the word.

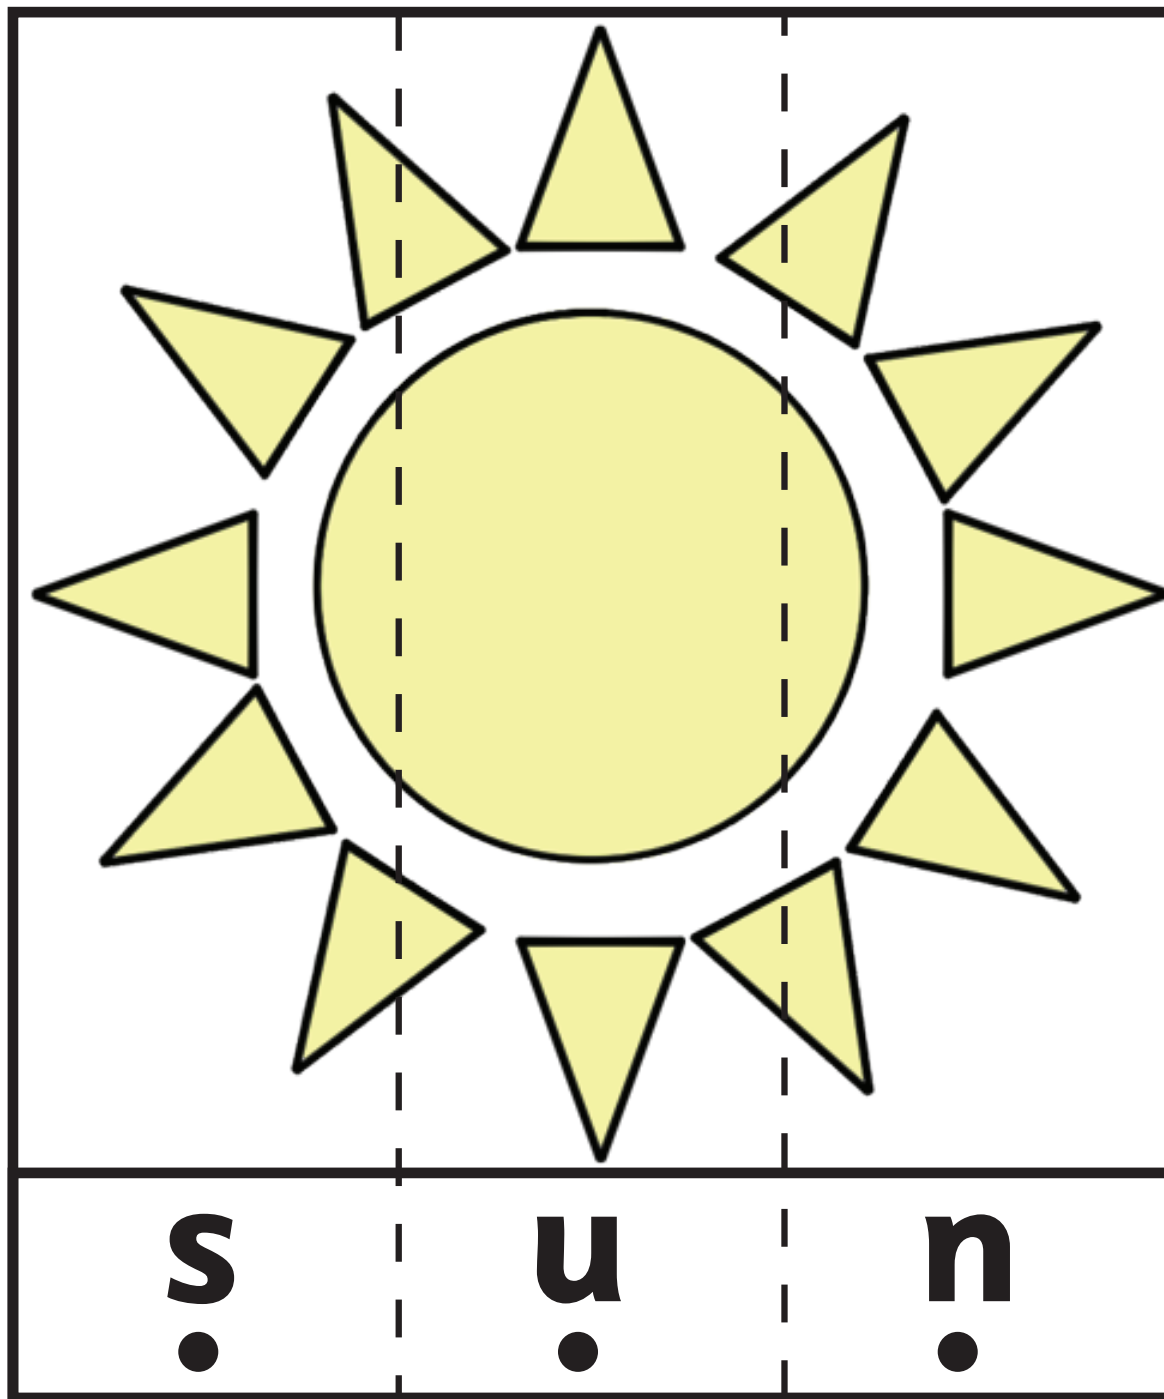

Blank picture puzzles have been included – children can write the corresponding letter sounds using a whiteboard pen.

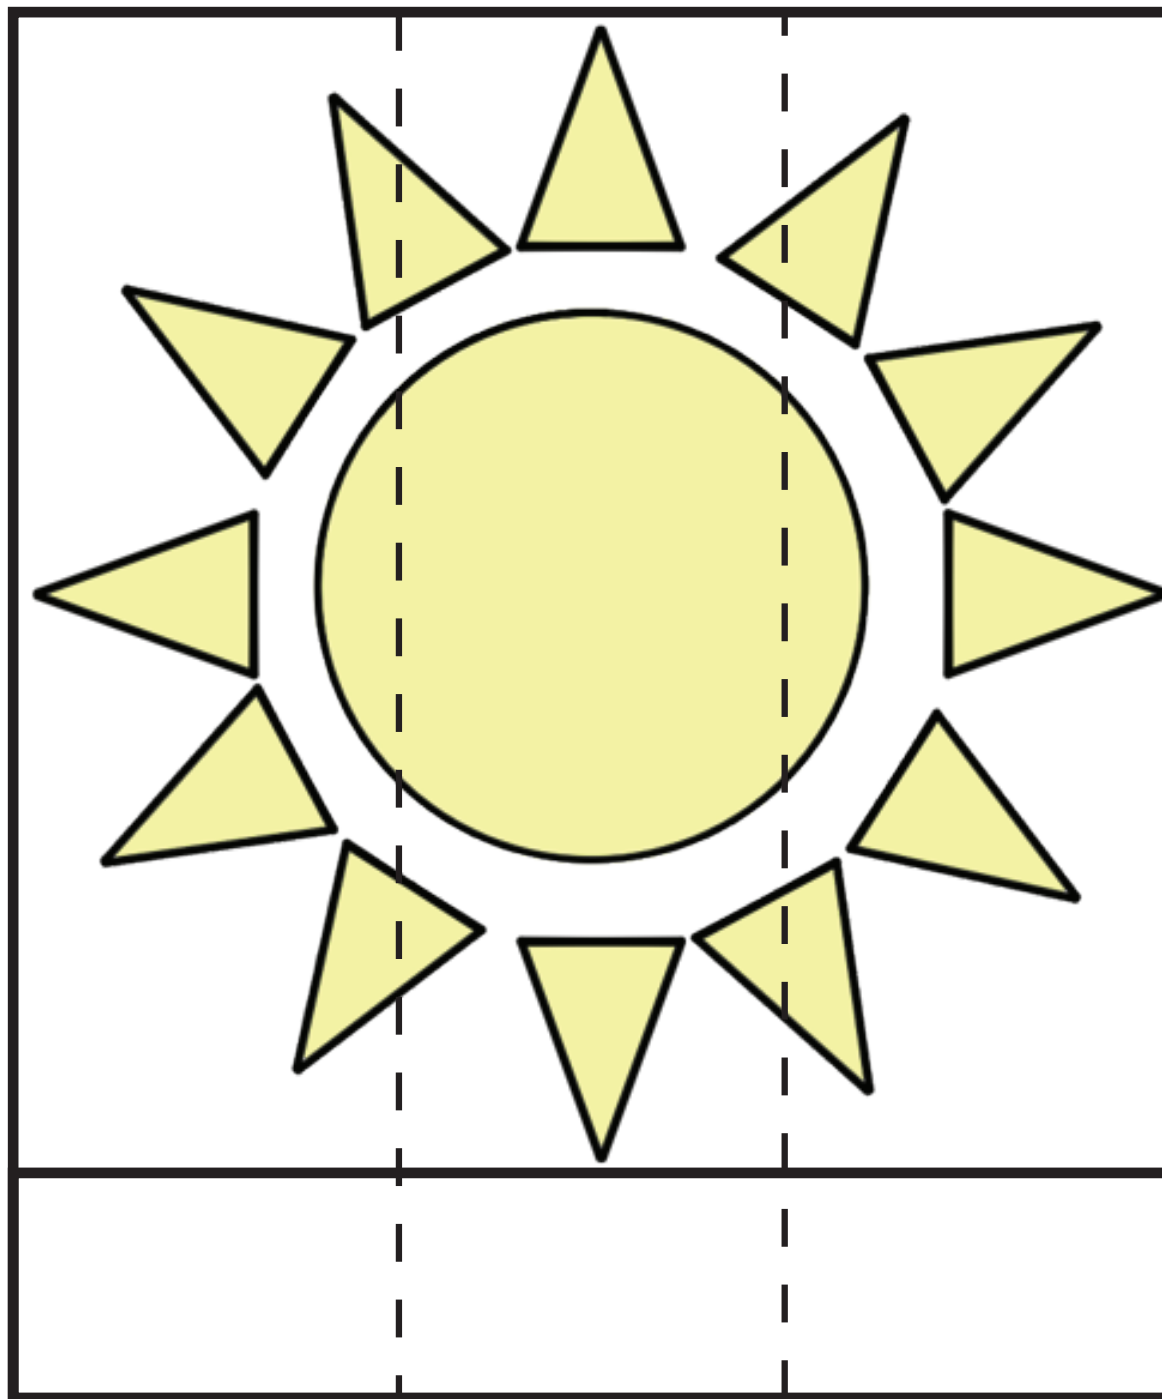

Other options:

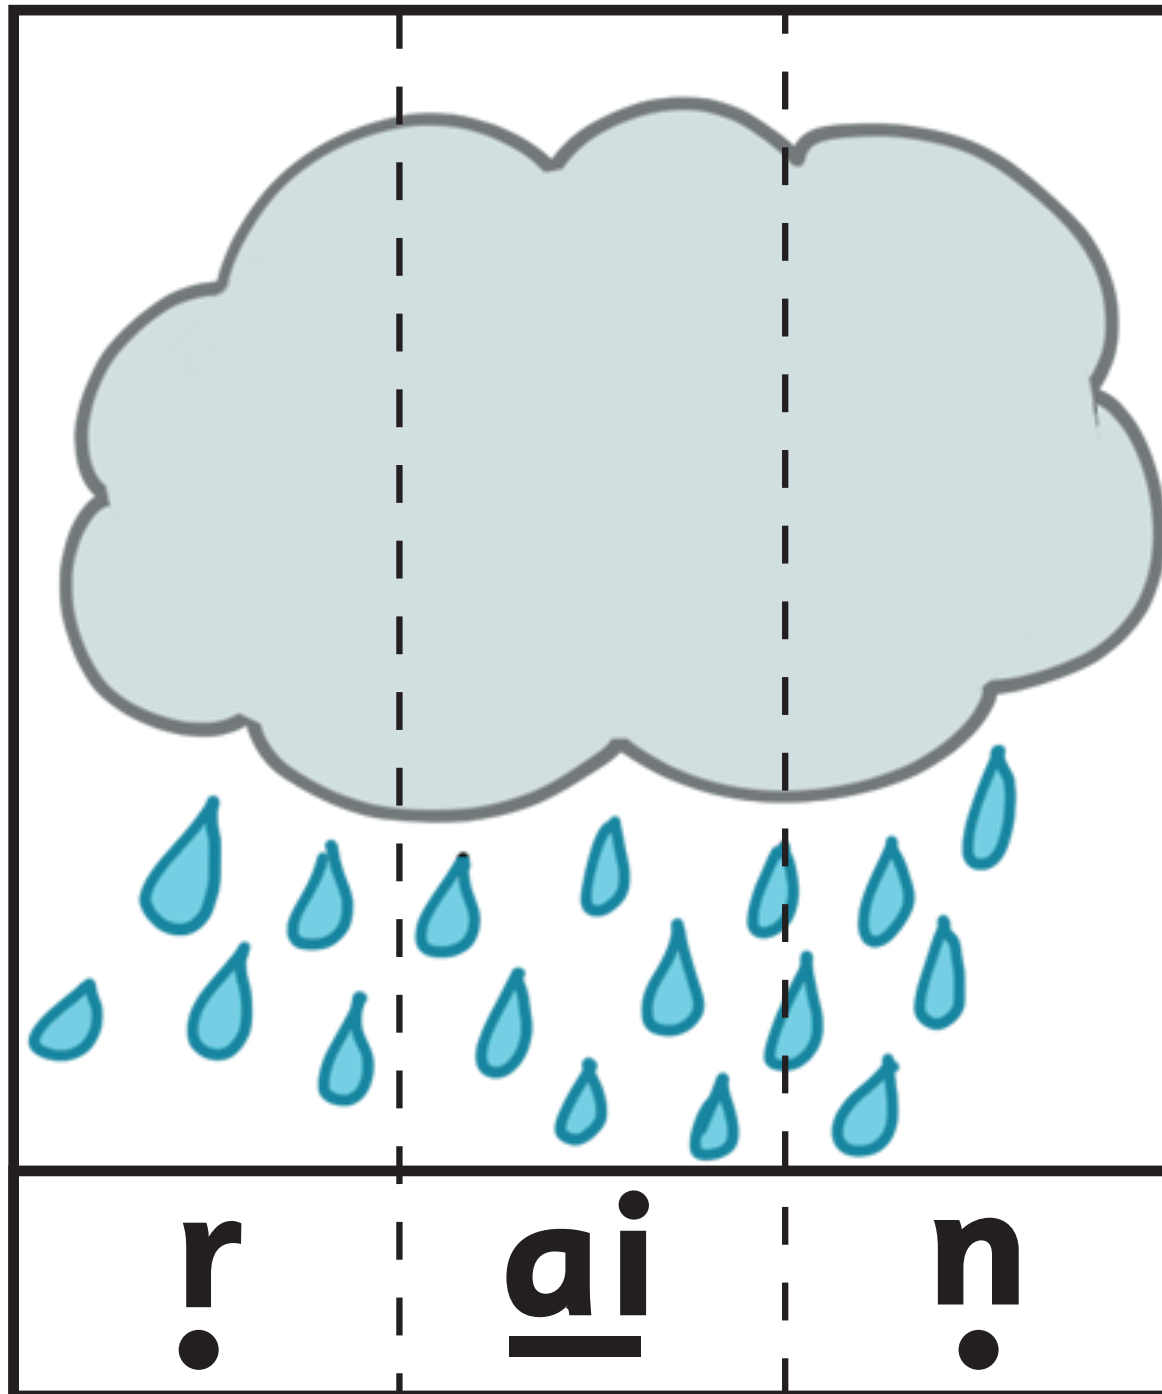

Children place phoneme flashcards or magnetic letters onto the blank puzzle pieces.

Peg the picture puzzle pieces onto a washing line to promote fine motor skills.

Hide the puzzle pieces around the outdoor area or along an obstacle course to promote physical development.
