

# Home Learning

Each week, complete the task from the relevant sections below to complete and bring in to share your learning!

**1****WEEK 1****Where does water come from?**

Look at how water is used in your home (drinking, bathing, gardening). Draw pictures of two ways you use water.

**2****WEEK 2****How much water is used?**

Research how much water is used for different activities (e.g., showering, washing dishes). Write down three activities and how much water they use.

**3****WEEK 3****Save Water!**

Talk to a family member about ways to save water. Write two new ideas you learned about conserving water.

**4****WEEK 4****Save Water!**

Create a "Save Water" poster with tips on how to save water at home. Include drawings or messages about your ideas.

**5****WEEK 5****Tracking Water Usage**

Try to track your family's water usage for one day. Write down what you found interesting about how much water you use.

**6****WEEK 6****Water in Nature**

Visit a park or garden and look for plants or animals that need water (e.g., ducks, flowers). Draw or write about what they found.

**7****WEEK 7****Sharing your Findings**

Share your water-saving poster and one interesting fact you learned about water conservation with your class.
