

## Online Safety – Google – Build Your Legend

Dear Parents,

As a trust we strongly value the importance of online safety both inside and outside of school. Throughout the school year, your child receives online safety lessons, assemblies and themed days to ensure that they are as safe as possible in the digital world that we now live in.

A major tool in keeping children safe online is **communication**. Talking to your child about what they do online, websites they visit, games they play, people they interact with, can be vital in keeping your child safe. We strongly believe that an open and honest conversation between children, parents and schools is the key to a safe and happy online experience for our children.

As a way of starting an online safety conversation in your household, your child will be coming home with a “Build Your Legend” kit supplied by Google. Inside is a model for you to make with your child while you have those honest and open online safety conversations. In order to access the instructions for your model kit, you will need to scan the QR code on the tube and complete the online safety quiz with your child. This can be done on both Android and Apple devices (or by accessing the website [g.co/BuildYourLegend](http://g.co/BuildYourLegend)).

If following this, you have any concerns or questions regarding online safety, please contact your school and a member of staff will get back to you.

Yours faithfully,

Mr. J. Tromans  
Trust Leader for Computing
